Description

One size doesn't fit all. Proven technology, rock-solid reliability and an unbeatable combination of performance and fuel efficiency.

Power & Performance.

High-displacement volume and premium MPI fuel injection combine to deliver outstanding acceleration, instant planing and smooth performance throughout the rpm band. Mercury® SmartCraft® Digital Throttle & Shift is standard, providing precision throttle response and effortless steering.

Fuel-Efficient.

Electronic multi-port injection (MPI) and standard Emissions Control Technology (ECT) combine to deliver precisely the correct amount of fuel for every stage of operation – no more, no less. The result is fuel economy that stretches your boat’s range and your dollar.

Corrosion Protection.

The freshwater closed-cooling system (standard) dramatically limits potential corrosion. In fact, Mercury® is so bullish about the anti-corrosion technology built into these engines, we offer a standard four-year limited corrosion warranty in addition to the three-year limited factory-backed warranty.

Durable & Reliable.

Mercury’s Engine Guardian continually monitors critical sensors for any sign of a problem and immediately takes action, while the water-cooled Cool Fuel delivery system prevents vapor lock. Rugged construction, including stainless-steel exhaust, ensures long-term, hassle-free operation.
HP / kW
• 375 / 280

Maximum RPM (WOT)
• 4200-4600

Engine type
• V-8

Displacement (L)
• 8.2

Bore and stroke
• 4.47 x 4.00" / 113.5 x 101.6 mm

Compression ratio
• 8.75:1

Recommended fuel
• Unleaded Regular 87 Octane Minimum (R+M/2) or 90 RON 10% Ethanol Maximum

Fuel delivery system
• Multi-point Electronic Fuel Injection (MPI)

Air induction
• High inertia induction system

Ignition
• Distributorless ignition with knock control

Alternator amp / Watt
• 65 amp / 917 watt

Water drain system
• Single point air actuated

Exhaust system
• Tuned runner exhaust manifolds with 316 stainless steel tubular dry joint elbows

Cooling system
• Brass sea water pump
• Closed cooling
• Long life 5-year antifreeze

Accessory drive system
• Auto-tensioner
• Serpentine belt

Recommended oil
• NMMA Certified FCW 25W-40 Synthetic Blend

Engine guardian system
• SmartCraft Engine Guardian

Dimensions (L x W x H)
• 35 x 33 x 24" / 878 x 838 x 610 mm

Weight (engine only)
• 990 lbs / 449 kg

Compatible drives
• ZF 63A Down Angle
• ZF 63IV V-Drive
