Boat Details

Price	POA	Boat Brand	Yamaha
Model	VF115	Length	0.00
Year	2024	Category	Boat Engines and Outboards
Hull Style		Hull Type	
Power Type	Power	Stock Number	VF115LA
Condition	New	State	Western Australia
Suburb	CANNING VALE	Engine Make	

Description

When it comes to exhilarating performance, no other engine matches the speed, weight and smarts of Yamaha’s VMAX SHO (Super High Output) four-stroke engines. The VMAX SHO high performance range was recently expanded to include the VF115, allowing smaller horsepower rated boats to take advantage of this high performance platform. This in-line four cylinder, 1.8 litre outboard is tuned to deliver additional top-end performance for high performance sports such as bass fishing, skiing and racing.

The VF115 has achieved significant weight reductions, by utilising a lightweight composite lower pan and cowling, a single-ram power trim and tilt mechanism, and a lightweight mounting bracket, delivering an exceptional power-to-weight performance. This compact, lightweight and capable engine delivers a performance typically associated with a two stroke, but with the convenience, reliability and whisper quietness of a four-stroke.

Technical Specification

HeightL: 516 [20.3] | X: 643 [25.3]

WeightL: 171 | X: 176

Engine4-Stroke, 16 Valve DOHC Direct Action In-line 4

Displacement1832.0

Bore81 x 88.9

Max RPM5300-6300
